NORTH CAPE TRANSFER & ENTRANCE

Honningsvaag, Norway Tour Code: HVG_02

As you set out from Honningsvåg on your one-hour drive to the North Cape, you'll quickly see that a barren landscape is the hallmark of the windswept Arctic Circle where the vegetation appears sparse, indeed. To the botanist, however, it is plentiful, with 200 species of plants growing here. Watch for reindeer during your transfer.

The North Cape itself is an enormous rock with a steep wall climbing over 1,000 feet/304 meters from the Arctic Ocean below. At a latitude of 71°, 10' north, the cape is remarkably civilized, with a post office, chapel, bar and restaurant. You'll even find a shopping area and a cinema. The spectacular 14-minute long film takes you on a journey of a landscape filled with contrasts, light and nature. The people's story and history is told with beautiful pictures and music. Take time for photos, browsing and postcard writing.

Note: An escort from the ship will join you, but there is no guide on this tour. There is a walking distance of 0.05 miles/91 meters from the parking area to the North Cape Hall on paved sidewalks and gravel paths. Walking at the North Cape Hall is at your discretion. You must negotiate from 20 to 50 steps to visit plateau and cinema. There is also an elevator inside the building.

KING CRAB SAFARI

Honningsvaag, Norway Tour Code: HVG_04

The giant king crab was introduced to the Barents Sea by Russian scientists during the 1960s. The crab thrived in these waters and spread rapidly to the west, where it can now be found along the northern coast of Norway. As the number of this species is in the millions, it consumes a great deal and there a concern over the impact to the local ecosystem, so controlled crab fishing is now permitted.

After a short stroll along the pier, you'll get fitted with your all-in-one warm waterproof outfit and flotation suit and attend a safety briefing, then board your deep-sea raft with a driver/guide and set off towards the Sames Fjord to inspect the crab pots. King crab can live to 30 years old, measure up to 6 feet between its claws and weigh as much as 22 pounds. The catch in the crab pots you'll pull, will most likely weigh between 6 to 15 pounds.

Upon returning from your expedition, you'll sit inside a lavvu - a Sami tent with an open fire and reindeer skins on the ground. In this tent the crabs will be prepared and cooked for you, to have as a snack with bread and butter and choice of mineral water or coffee.

Note: Participants must be at least 4 years of age and in good physical condition. This tour is not recommended

BIRD SAFARI BY BOAT

Honningsvaag, Norway Tour Code: HVG_01

Gjesvaer has about 250 residents and was the first settlement on Mageroya Island, an important trading place in the north, as early as the Viking era. A small vessel will take you out to the Gjesvaerstappan Nature Reserve, 10 miles west of the North Cape cliff. The boat is fully heated and there is plenty of deck space for everybody.

Landing on the bird islands is not permitted, but from the boat you may observe Norway's largest grouping of puffins, as well as plenty of kittiwakes. The puffins, easily recognizable by their colorful bills, nest in holes in the grassy hills. The nesting period is from April until September. Mighty white-tail eagles can be seen hovering overhead as they hunt for prey. Guillemots, razorbills, cormorants, arctic skua, fulmars and gannets are also part of the flourishing bird life here. At the end of your boat tour, return to your waiting coach for the return to Honningsvag.

Note: Participants must be physically fit. This tour is strenuous due to the fact that the boat is moving in the open ocean, although not much walking on the tour. Flat shoes with rubber soles are required along with gloves and raingear. Transfer time between Honningsvag and Gjesvaer is approximately 45 minutes each way. Sighting of any particular species is not guaranteed, although a wide variety of wildlife will be seen.
