St. Lucia

Nestled below the Pitons, twin peaks rising over 2,600 feet above the azure waters of the Caribbean, St. Lucia is an oasis of tropical calm. The island's capital, Castries, is a town of charming, pastel-colored colonial buildings, home to some 60,000. Yet despite its peaceful setting, St. Lucia has a turbulent and colorful history. Fierce Carib warriors overran the peaceful Arawaks in the 9th century. The first European settler, Francois Le Clerc, was a French buccaneer. Le Clerc's countrymen followed in his wake, establishing the town of Soufriere in 1746. Sugar was the lure, sugar was king. Within four decades some 50 plantations flourished on the island. Thus St. Lucia became part of the Caribbean's 18th-century trade triangle of sugar, slavery, and rum. Today this beautiful island welcomes visitors drawn to its exotic tropical landscape, superb beaches, crystalline waters, and colorful marine life.
