

## BARBUDA, BARBUDA

---

Barbuda: Frigate Bird Sanctuary

ACTIVITY LEVEL: EASY

Barbuda is a very flat island of limestone formation lying approximately 30 miles north of Antigua. Its highest elevation is about 128 feet and **Barbuda boasts the finest beaches in the Caribbean**. The Frigate Bird Sanctuary is the **largest frigate bird gathering** in the world, with an estimated **2,500 of these graceful birds** living there. You will board a small boat of no more than 10 people to head to the north end of the lagoon. You will get very close to these large birds and your guide will enchant you with local knowledge and observations of the lives of these “Man O’ War” birds and possibly entice you to hold a jellyfish.

Please note: The ground is uneven at the beach and there are steps to navigate on the boat.
